

CUSTOM BUILD

CONSULTING

Working directly with home builders and architects, Pinewood provides the necessary foundation to support new community construction as well as custom home building by providing consultation during the planning and design phase, as well as working with clients to aid them in their finishing options once the project is under way.

Whether on-site in a large community build, or working intimately in our offices, Pinewood provides exquisite solutions for your new home construction project.

Design phase and post construction services

- We work with clients directly in with supplies to help with fit and finish selections
- Since 1975 years in the new home design industry gives us the knowledge and expertise to help make your building experience enjoyable
- We offer white label solutions to home builders

What we can do for you:

- Prepare quality estimates for you or your financial institution
- Help you secure bids from contractors and suppliers at wholesale prices
- Advise you on steps necessary to complete the job
- Help in scheduling to ensure work is completed in the right order
- Inspect the work with you or on your behalf for quality and progress
- Work exclusively for you, with all savings and discounts passed on to you
- Identify existing construction problems and help in correcting the problem
